

About Richard Wolf Medical Instruments

At Richard Wolf, we are committed to improving patient outcomes through innovations in minimally invasive surgery. As the US subsidiary of a global leader in endoscopic instruments, Richard Wolf has been providing solutions that enhance surgical results, reduce trauma, and pave the way for groundbreaking procedures for over 100 years.

spirit of excellence

Take a Different Path to Success

Jumpstart your career with the Richard Wolf Apprenticeship Program.

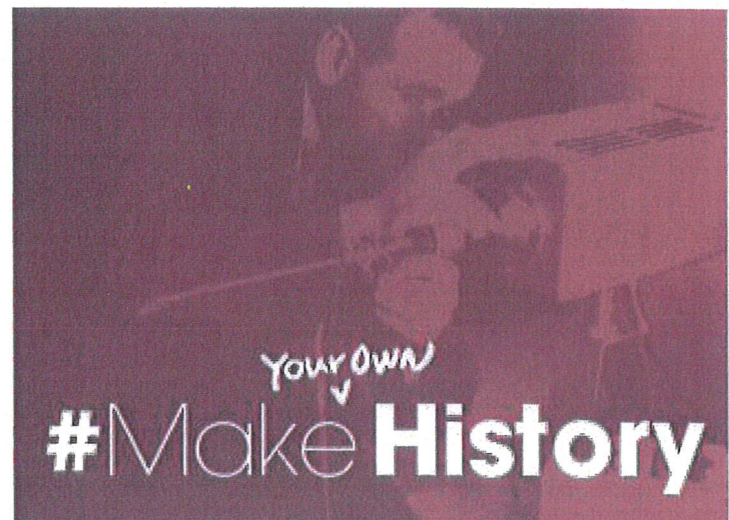

Want to gain valuable work experience while getting your degree? At Richard Wolf Medical Instruments, you can get a free college education, combined with on-the-job training through our one year apprenticeship program.

How does it work? Each semester of the program, you'll attend classes at Harper College and work at RWMIC for a combined total of 40 hours paid each week. The company pays for all of your college expenses and apprentices also qualify for all employee benefits, including medical insurance and vacation time.

Apprentices Earn:

- A Manufacturing Production Certificate through Harper College.
- Advanced technical skills with precision instruments and imaging equipment.
- 1 year of on-the-job experience.
- A Full Time Position upon completion of the program.
- *A debt-free education!*

Learn more today! Discover how the Richard Wolf Apprenticeship Program can accelerate your career. Go to richard-wolf.com/en-us/company/careers for more information, or contact Jenny Miller, Sr. Human Resources Generalist, at jmiller@richardwolfusa.com or 847-913-1113, ext. 369.
