

# Take Charge and Advance Your Career

Indiana Tech can help.

Employers throughout Indiana and the Midwest have indicated a great need for exceptionally qualified professionals for positions in advanced manufacturing, engineering, electrical and mechanical operations and computer systems. A degree from Indiana Tech equips students with the skills needed to confidently fulfill roles like these.

Our associate and bachelor's degree programs are designed to prepare students for success in technical careers. Gain essential knowledge in engineering and technology, as well as communication, collaboration and project leadership.

Invest in your future and take your career to the next level. Talk to your personal admissions representative about degree programs like:

- Construction Management
- Electrical Engineering Technology
- Industrial and Manufacturing Engineering
- Mechanical Engineering Technology
- Organizational Leadership
- Production Management
- Supply Chain Management

At Indiana Tech, classes start every six weeks and are offered online, on site at one of our regional locations, or a combination of both. Take one class at a time and make rapid progress toward degree completion.
